Scott,

My apologies for taking a while to get back to you. I've compiled a list of people (attached), as a place to start, whose communications (emails and other written forms of communication) I'm seeking. These names should be searched for along with the other criteria laid out in the original FOIA request. This would further narrow this request, however, I would like to keep the request open while I search for other relevant names.

It's been about 15 months since this request was filed, and I have not received any records. I know we are all eager to see it fulfilled. I appreciate your willingness to work with me on this.

Please let me know if you agree to A) Search for responsive records to include these names; and B) Keep this FOIA request open while I search for additional names.

Thank you for your time and attention to this matter.

Scott,

Thanks for the call, and my apologies for the delay in responding to your email. I've been going through some of the materials and will be in touch in the next week or so with suggestions on where to go from here.

David—

Glad we connected earlier today and were able to discuss your area of focus.

We discussed that you'll be looking through some materials in your possession in the next couple days, and you will get back in touch next week for further discussions on the possible request. I am available much of Tuesday, Wednesday and Thursday for such discussions.

This email is sent in accordance with the EPA FOIA Final Determination letter dated February 21<sup>st</sup>.

EPA would like to provide you an opportunity to clarify and narrow your request consistent with the Final Determination Letter. We understand that you had some conversations last fall with Mary Russ on some appropriate search parameters of the request. We could use these parameters as a starting point for further discussions.

Please be advised that if we do not hear from you in 10 business days the Agency will close this FOIA request.
